

LILIT GRIGORYAN

Obstetrician-Gynecologist (OB-GYN)

818-974-3812 | arm.lilit.grigoryan@gmail.com

PROFESSIONAL SUMMARY

Dedicated Obstetrician-Gynecologist with comprehensive medical training from Yerevan State Medical University and four years of hands-on residency experience at Erebuni Maternity Hospital. Skilled in managing high-risk pregnancies, performing cesarean sections and gynecological surgeries, and delivering compassionate patient-centered care. Complemented by recent experience in U.S.-based clinical operations and agency coordination, bringing a unique blend of medical expertise, cross-cultural competency, and organizational excellence.

PROFESSIONAL EXPERIENCE

Medical Clinic Coordinator

January 2025 - Present

Healthier Lifestyle Medical Group

- Streamlined daily clinic operations to ensure efficient patient flow and high service standards.
- Managed patient registration, scheduling, and the maintenance of confidential medical documentation.
- Applied clinical knowledge to support physicians in patient intake and triage procedures.
- Ensured compliance with healthcare regulations and maintained accurate electronic health records.

Principal Coordinator

January 2025 – January 2026

HH Agency

- Coordinated communication between the agency and its clients, ensuring consistent and high-quality service delivery.
- Organized workflow planning and monitored deadlines to ensure all projects were completed on time.
- Participated in service quality control and supported the implementation of agency-wide operational processes.
- Maintained detailed project documentation and facilitated cross-functional team collaboration.

Residency – Obstetrics & Gynecology

2016 – 2020

Erebuni Maternity Hospital

Yerevan, Armenia

- Managed over 300 pregnancies and deliveries, including complex high-risk cases requiring specialized intervention.
- Performed obstetric and gynecological procedures, including cesarean sections, hysteroscopy, and uterine surgeries.
- Provided patient counseling on pregnancy planning, prenatal care, and reproductive health.
- Collaborated with multidisciplinary medical teams including neonatologists, anesthesiologists, and midwives.
- Participated in emergency decision-making and critical patient management under high-pressure situations.
- Attended professional seminars and conferences to stay current with advances in obstetrics and gynecology.
